Innovative e-Guide in Construction Workplace Health and Safety

2013-1-BG1-LEO05-08722

This project has been funded with support from the European Commission. This publication reflects the views only of the author, and the Commission cannot be held responsible for any use which may be made of the information contained therein.

e-Guide CWH&S project tackles identified problems and gaps in the VET systems of 6 European countries by developing an interactive multilingual e-learning tool on the signs and signals in construction industry.

The project is implemented by a consortium of 7 partner organisations from Bulgaria, Turkey, Austria, Malta, Northern Ireland (UK) and Spain selected on the grounds of their experience in VET and market expertise.

AIM

To develop an innovative, attractive and useful training tool for acquiring key competencies on the safety signs and signals in construction industry

OBJECTIVES

- ✂ To transfer and adapt industry-specific VET training methods and tools;
- ✂ To train VET students, trainers/tutors and SME staff in health and safety signs and signals in construction industry;
- ✂ To raise awareness of the essential importance of health and safety signs and signals in construction industry and the related sectors.

The project **directly addresses the needs** of:

- ✓ VET students
- ✓ VET trainers
- ✓ Construction company managers
- ✓ workers in the construction sector

From a long-term perspective the **project results are targeted at:**

- ✓ VET decision-makers for specific training for the system of safety and health in construction industry
- ✓ public and private VET providers
- ✓ self-employed people in construction and the related industries
